Mental Health Forum Focus Session:

Community Mental Health Framework update

12 January 2022 14.00 – 16.00

Following the development of the new Community Mental Health Framework over the last few months, we would like to invite all VCSE organisations interested in finding out about how the new VCSE Alliance in South Devon will operate and what impact this may have on VCSE services, to attend this information session. The Alliance will be keen to focus on community led solutions that could be delivered by VCSE organisations who deliver preventative services that may not fall under the traditional description of mental health.

In the second part of the meeting, there will be the opportunity for those organisations involved with our regular Mental Health Forum to stay to discuss how the new Alliance may impact on their current mental health services and what steps may need to happen to ensure future involvement, as well as updating the group on any new services/developments, or issues that they are facing.

To receive a link to the Zoom meeting and to confirm your attendance please contact elaine@teigncvs.org.uk

Families and Children Forum

26 January 2022 10.00 - 11.30
